ABOUT US

Born in 2020 from a bold management buyout, we transformed legacy travel and aviation operations into a powerhouse spanning travel, aviation, hospitality, logistics, insurance, and education.

Our trajectory is anything but conventional. By 2024, we had already secured a strategic partnership with CF Global, a world-class leader in logistics and supply chain management. This alliance wasn't just about growth—it was about reshaping industries.

With CF Global acquiring a minority stake, we tapped into a vast network covering over 150 destinations, fusing cutting-edge logistics technology with Acorn's signature agility. The result? An unstoppable force in aviation, freight, and travel.

At the helm is Chairman Mahbubul Anam, a visionary in freight forwarding and aviation. Under his leadership, Acorn Group isn't just expanding—it's redefining the boundaries of what's possible in the region. Our success isn't built on following industry trends; it's built on setting them.

At Acorn Group, we don't wait for opportunities—we create them. Every decision is shaped by innovation, market intelligence, and the drive to build sustainable, future-ready businesses.

Challenges are inevitable, but with the right mindset, they become stepping stones rather than obstacles. Our partnerships are built on trust, our strategies on precision, and our success on the ability to evolve in an ever-changing world.

We believe that growth isn't about following trends but about setting new benchmarks and redefining what's possible. At Acorn, resilience and reinvention are not just ideals – they are the foundation of everything we do.
